

# Chouteau County Neighbor In Need

## Our Purpose:

To connect people in need with resources, services or equipment available in the community free or at a reduced rate.

This program was started in 2015 by the Chouteau County Public Health Community Coalition. The Community Coalition is a group of community members trying to make Chouteau County a better place to thrive.

The Neighbor in Need program is designed to provide resources and services to anyone in the community with a need. Neighbor in Need has helped Chouteau County residents with assistance meeting emergency financial obligations like power and heat bills, clothing and household goods for new arrivals or those affected by fire or other events requiring emergent relocation.

The only thing we request is that if circumstances change after someone receives help, they think of giving back to the program.
